### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: none of the prior art record alone or in combination teaches an applicator and closure cap assembly having the structures as claimed, wherein a closure cap is disposed on a neck of a container so as to cover a porous applicator tip. The closure cap is in a non-locking interface with the neck and therefore requires a removable seal between the closure cap and the neck to prevent evaporation of fluid from the container prior to use. Furthermore, none of the prior art alone or in combination teaches the detail of the closure cap and the removable seal of an applicator and closure cap assembly as claimed in claims 24 and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bennett et al. and Braun disclose caps having a tear strip but lack the feature as indicated above.
